Plan the different parts of the door so that the edges may be planed to fit the opening; that is, make the door a good quarter larger at top and bottom than the opening. In cutting the rebate the easiest way is to use a rabbeting plane and cut the full length of the pieces. By using a tenon Pg 61 on the rails in which one shoulder is as much longer than the other as the rebate is deep there is no resulting groove showing at the corner. Case with Mirror Door The wood should be finished before the glass is set, at least, it should be filled, if of hard wood, and one coat of paint put on, if of soft wood which is to be enameled. Pg 62 In setting the glass, place a thin cushion of putty between the rebate and the glass and another thin cushion between the glass and the fillet of wood or the backing which is to protect the back of the...
