## The All-American Five Radio Understanding & Restoring Transformerless Radios of the 1940s, 50s & 60s

---

By Richard McWhorter

2003. Soft Cover. Book Condition: New. 7 x 10 in. Collector Bookstore is a retailer of new books located in Leavenworth, Kansas. We specialize in price guides and reference books for the antiques and collectibles industry. Transformerless table radios produced near the end of the vacuum tube era, also known as AC/DC sets, have become highly collectible for their variety of appealing cabinet styles. They were made in colorful plastics, catalin, bakelite, wood, metal, novelty and deco styles. In this easy to read book author Richard McWhorter explains the basics of radio theory, reading schematic diagrams and troubleshooting - as it applies to one of the most commonly found radio circuits of the era. Ideal for radio collectors and anybody wanting to learn how radio receivers work and how to repair them.
